Greetings To Our Friends and Customers

We wish to thank our customers for the nice letters received telling us of their success with roots and plants they have had from us. Also for recommending us to their friends and flower lovers. Our catalogue will be sent to any of your friends upon receipt of their names and addresses.

From all indications the coming season (1935) will be a busy one and I urge you to order early so as not to be disappointed, as we fill our orders in rotation and many of the newer ones we can only spare a few of each.

If you are a new beginner and notify me at the time of ordering, I will be glad to let you know if your order has some that need special care or you would do better by substituting.

I grow over 400 varieties and have added 60 this season. Many of these were grown in my garden in 1934. Hundreds of my customers and friends visit my gardens and field during blooming season, and I want you to be one of them, as visitors are always welcome.

We grow and sell our own roots and plants retail, also wholesale, to growers using their private letter heads. No extra wholesale trade discounts on plant collections.

Do not miss our plant collections on inside front cover and root collections on inside back cover. We specialize in good plants.

Thanking you for all past favors and hoping to be of service to you in the coming season.

Yours respectfully,

A. T. EDISON, Mgr.

OUR GUARANTEE

We guarantee all stock purchased from us to be true to name and delivered in good condition and to start into growth, and any stock received otherwise will be cheerfully replaced or properly adjusted. Not responsible in any case for more than the purchase price.

Our Green Plants

We are fully equipped to grow the best of plants, having a new $25\frac{1}{2} \times 50\frac{1}{2}$ ft. King semi-steel greenhouse, also a new cool greenhouse to grow and harden up the plants before shipping. We guarantee safe delivery of the plants in good growing condition and true to name, and will replace any found otherwise, but owing to the difference in soils, fertilizer used, climatic conditions and care of growing the plants, further guarantee of plants ceases. We received letters from customers from California, Oregon, and many eastern and southern states telling of the fine plants received and of the strong growth made and large flowers they had. Our early plants and most all the late plants (of July 1st) had just as good roots in the Fall as root grown plants did, and earlier bloom, and we recommend them to our customers. The plants should always be planted deeper than roots, from 6 to 8 inches deep, and the holes gradually filled in as the plants grow. Try our plants and be convinced.

ORDER EARLY—As orders are filled in rotation—field-grown roots or thrifty plants if ordered—ordering early will insure the reservation of varieties that later may be sold out. Orders are filled with varieties called for, and unless substitution is asked, I never substitute. Please make your orders \$2.00 or more, if possible, as it costs us just as much to handle a small order as one from \$5.00 to \$10.00. The same amount of work as packing cartons, handing, inspection, etc., is required.

TIME OF SHIPMENT—Unless otherwise ordered, tubers will be shipped between April 15th and May 25th (plants can be had up to June 10th), by express or insured mail at my expense, on all orders over \$2.00; under \$2.00 add 15c for postage. If Special Delivery or Extra Handling is wanted on plants, add 25c extra. It hastens delivery on plants. Complete cultural directions inclosed with each plant or root order.

TERMS—Cash with order unless parties are known to me. No goods sent C. O. D. unless 50 percent of purchase price accompanies order. We will hold your order for you if a deposit of 25% is made, balance to be remitted before shipment is made.

REMITTANCES should be made by bank draft, post-office money order or registered letter. Postage stamps accepted up to \$2.00. Coin should not be sent by letter unless registered.

ERRORS—While my system for handling orders is as near perfect as possible, yet in the rush of business, errors are possible to occur, and I wish to be promptly notified of such and will at once make same satisfactory. Make all complaints to me, not to your friends, as we aim to please.

NAME AND ADDRESS—Remember to write your **Name, Postoffice, County and State**, also give **Street Number or P. O. Box** as plainly as possible.
